

DOMREX™ DISPOSABLE BLOOD COLLECTION HOLDER

The DOMREX™ Disposable Blood Collection Holder is designed to reduce the risk of contact with bloodborne pathogens, compared to reusable holders. It ensures an easy viewing of blood collection while providing a secure Luer Lock connection.

BENEFITS

- + Single-use – Non-sterile
- + Latex-free / BPA-free / DEHP-free
- + Base ridges for improved grip
- + Compatible with all types of blood collection tubes up to 10 mL
- + Size and shape designed not to interfere with the blood collection technique
