

DOMREX™ BLOOD COLLECTION HOLDER WITH LUER ADAPTER

The DOMREX™ Blood Collection Holder with Luer Adapter is designed to reduce the risk of contact with bloodborne pathogens, compared to reusable holders.

In addition to being sterile and non-pyrogenic, these holders are equipped with a Luer Lock tip, a Luer adapter and a tube piercing needle.

BENEFITS

- + Sterile in individual blister
- + Thread adaptable to all types of needles
- + The edge at the base of the barrel facilitates easy handling.
- + Accepts all types of collection tubes
- + The size and shape do not hamper the sampling technique
