

DOMREX™ DISPOSABLE SAFETY HOLDER FOR BLOOD COLLECTION

The DOMREX™ disposable safety holder is designed for use with blood collection needles and vacuum tubes. Single-use, it ensures a secure connection during procedures while integrating a safety mechanism aimed at reducing the risk of accidental needlestick injuries.

BENEFITS

- + Single-use – Non-sterile
- + Latex-free / BPA-free / DEHP-free
- + Base ridges for improved grip
- + One-handed safety mechanism activation with visual and audible confirmation
- + Size and shape do not interfere with blood collection technique
