

# DOMREX™

## PUSH-BUTTON SAFETY BLOOD COLLECTION SET

The DOMREX™ push-button blood collection set is a world-class safety winged (butterfly) device, offering virtually painless venipuncture and optimal blood flow while ensuring safety for both the patient and health-care professional.

### BENEFITS

- + Latex-free | DEHP-free | BPA-free
- + Translucent tubing is memory-free
- + Protective cap on the tube-piercing needle prevents accidental puncture of packaging or user injury before opening and during handling
- + One-handed push-button activation of the safety mechanism
- + Sterile rigid unit packaging (“hard pack”) ensuring optimal protection and device integrity
