

# DOMREX™ SAFETY NEEDLES

The DOMREX™ high-quality safety needles are equipped with an integrated safety mechanism that can be activated in two different ways, needing only one hand.

Safety in the medical field is a priority in North America. With this in mind, the DOMREX™ safety needles are offered at a competitive price facilitating the regular to safety products conversion.

## BENEFITS

- + One hand activation (left or right)
- + 2 activation options
- + Safety mechanism integrated in the needle
- + High-quality needle
- + Competitive price facilitating the regular to safety products conversion
- + Rigid protective cap that resists to needle perforation
- + Safety mechanism that fits the needle color for a faster identification (ISO color used)
- + Can be used with a standard Luer-lock syringe
- + Bevel-up needle orientation facilitating low angle injection
- + Non-coring needle with a sharp and visible bevel
- + Intuitive use and easy to activate (minimal formation required)
